

This station has served as a comfort and inspiration for me and for many friends and family members of mine. No matter what situation one is facing, they always have great, uplifting music, short talks or encouraging words. It would be a real loss to not have this station on the air. This station truly serves the public interest in everything they do. Their music, the announcers/djs, their short talks by authors and other respected people in the community and they also announce local events which we may not hear about otherwise. We have attended conferences on marriage, family, etc. as well as positive concerts and openings. PLEASE keep K-LOVE on the air!!!!!!!!!!!!!!
